## NOTICE OF STUDY COMMENCEMENT CLASS ENVIRONMENTAL ASSESSMENT FOR THE REALIGNMENT OF AIRPORT ROAD

The Municipality of Faraday Township is undertaking a Municipal Class Environmental Assessment for the realignment of  $\pm 300\text{m}$  of Airport Road, commencing  $\pm 275\text{m}$  west of Joy Bible Camp Lane, heading westerly. The project has become a priority for the Municipality due to the condition of the roadway, the roadway section's lack of proper drainage and elevation. The Municipality owns the property which will receive the realigned roadway and associated drainage network. As shown in the map below, the realignment property is located in Lot 14, Concession 16, of the geographic township of Faraday.

The project is being initiated in accordance with the Municipal Class Environmental Assessment, dated June 2000, and as amended. The Municipal Class EA applies to municipal infrastructure projects including road and bridge works. This project is being planned under **Schedule B** of the **Municipal Class Environmental Assessment**.

Public and agency consultation is an important component of the Environmental Assessment process.

Subject to comments received and the receipt of necessary approvals, the Municipality of Faraday Township intends to proceed with the planning, design, and construction of this project, to be completed by late 2019.
