Date: November 24, 2022 at 10:00a.m.

Virtual Meeting (Zoom)

Contact: cbeaumier@hastingshighlands.ca

To join the North Hastings CSWB Advisory Committee...

To help advise and inform the Coordinating Committee as they examine:

- The region's principal risk factors, those most affected, and protective factors needed to reduce harms and enhance safety and well-being for all in North Hastings

The North Hastings Community Safety Well-Being Coordinating Committee consists of the Township of Carlow/Mayo, Faraday, Wollaston, Limerick, Tudor and Cashel and the Municipality of Hastings Highlands

North Hastings Community Safety and Well-Being Committee

Additional Information ...

- In 2018, the seven (7) municipal governments in North Hastings agreed to work collaboratively on a regional plan as a collaborative commitment to address priority risk factors and improve the safety and well-being of all
- The purpose of the NHCSWB Plan is to detail a strategy to direct public policy, social programs and resources, and community awareness, interests and activities to where they can be most effective in increasing public safety, improving health and well-being, and reducing crime, disorder and social isolation in the area
- Representatives from 30 organizations from across North Hastings shared data, insights, and anecdotes
- Based on local data, and community consultation three priority areas were identified in North Hastings; **Poverty, Mental Health and Addictions, and Housing.**

Ongoing municipal communication and cooperation are needed to ensure the plan's success. Accordingly, the NHCSWB Coordinating Committee has committed to meeting regularly to assess progress and make amendments to the plan where necessary.

The **Advisory Committee** is made up of local experts from local health services, community and social services, First Nations, education, police services, and member municipalities. The role of the Advisory Committee is to advise and inform the Coordinating Committee as they examine the region's principal risk factors, those most affected, and protective factors needed to reduce harms and enhance safety and well-being for all in North Hastings.

The North Hastings CSWB Plan identifies the current list of Advisory Committee Members as it existed at the time of development. We are looking to use the upcoming November 24, 2022 Meeting as a chance for these members to reaffirm their commitment and for new, interested members to join.
